Hi Ileana,

How are you? It has been a while since the last time I gave you news.
I guess you are in Boston now. How was the end of the summer?
I hope you didn't get too many difficulties with Eleanor and Alonda.
Also, I hope you don't have too many troubles with my part of Kinari.
Don't hesitate to ask me questions or changes in my code if you need. :)

On my side, I am actively looking for a new job. I have several processes in progress.
The companies asked me to provide two references, and they would like to contact you to have
your opinion about my work at Smith.
Would you allow me to give you your email address? if yes which one (smith, personal, umass,...)?

(Btw, I have whatsapp and I changed my phone number of course.
If you want to make a call one day, here is my phone number: +33 07 85 65 87 97.
Or I can add your phone number (I still have it) to my list of whatsapp contacts.
Or we can use skype, as you wish.)

Have a wonderful day.

Aymeric

Hi Aymeric -

It's good to hear from you! Yes - of course - you can put my name as a reference for your next job application(s).
Use my UMass address streinu@cs.umass.edu.

All is well here in Northampton. It was a bit hectic this summer, we missed your expertise - but Eleanor and Alonda
and Magda did a good job and a significant segment of the kinari pipeline is now functional. I am working to port it
on an external server, and I'll send you the link when it will be available, and when I get to integrating your code.

Ciprian and I are moving to Cambridge tomorrow. We will be quite busy next week settling down there, but
afterwards things should calm down and we can catch up over whatsapp or skype. The last week of September I
will also be traveling to France for a conference.

Good luck with your job search and keep in touch.

Best,

Ileana

Hi Aymeric -

It's good to hear from you! Yes - of course - you can put my name as a reference for your next job application(s).
Use my UMass address streinu@cs.umass.edu.

Thank you Ileana.

All is well here in Northampton. I am working to port it on an external server, and I'll send you the link when it will be available, and when I get to integrating your code.

Good to hear that the project is not paralyzed. :)
I am eager to get the link (and discover new bugs. >.>).

Ciprian and I are moving to Cambridge tomorrow. We will be quite busy next week settling down there, but afterwards things should calm down and we can catch up over whatsapp or skype. The last week of September I will also be traveling to France for a conference.

Enjoy your time in Cambridge.
If you pass by Paris and if you have time, it would be a pleasure to organize something to see you.

Best,

Aymeric

Hi Ileana -

Sorry for giving news only now. I wanted to email you earlier in September, but I was quite busy...

I found a job in Paris. Thank you again for your help.
I'll be IT consultant at CAPFI (an IT consulting company specialized in finance),
and I'll start on Monday.
It is not as interesting as the position I had at Smith of course, but it allows me to stabilize my situation...
Also, I will improve my skills in multiprocessing/multithreading and in C/C++...

How are you and Ciprian going?
How are the things going in Cambridge?
Do you like Harvard?
Did you manage to port Kinari on an external server? Maybe not, I guess it takes some time to do such a task.
How was your conference in France, in September?

I would like to plan a whatsapp call or a skype call with you one day, if you're interested.
I imagine you are more busy than me, so tell me when you are available during the following days/weeks.

Best,

Aymeric
